the teaching staff

## Overview

In the distance learning timetable you will find every single hour, just like in your "normal" timetable. So you always know which task is currently next in line and in which interactive lesson you will take part.

### Good to know

In the lower classes of the Europagymnasium Auhof there is exactly one weekly assignment for each subject. This is divided into an hourly schedule. Besides the assignments, this weekly plan also contains other important information, e.g., deadlines.

## Every single lesson ...

### Subject / Teacher ("Fach / Lehrkraft")

For each lesson you will first find the subject and initials of your teacher. In case there should be more than one group, you may find which one you are in.

### Further information ("Weitere Informationen")

In case of video conferences, online chats or face-to-face instruction or other forms of interactive lesson, the lesson will be highlighted in blue. In the remaining lessons you are to work on your assigned tasks.
