

Dear Students and Parents of the Europagymnasium Auhof,

Subject to the regulation on school operations from May 17th, which will be published soon, the following changes will result from this point in time:

1. Face-to-face lessons for all students.
2. Monday, Wednesday and Friday are test days at the school.
3. It is compulsory to wear mouth and nose protection, whereby an FFP2 mask is required for the upper level and the teachers. The previous hygiene regulations remain in effect, with the exception of the minimum distance in the classrooms (hand disinfection, one-way regulation for two staircases, singing only and sports mainly outdoors).
4. The school buffet is open again from 7:30 am to 2:00 pm. Lunch can be ordered for Monday through Thursday.
5. After school care can be used normally again.
6. The distance learning timetable expires.

I am glad that after the various severe restrictions we have been able to experience a phase with face-to-face lessons for everyone since November 2020. Even if normal operations are not yet possible, the longed-for lessons can begin again for everyone. I hope that this will be possible by the end of the school year, and thank everyone involved, students, parents and teachers, for making school possible under difficult conditions during this time of crisis with creativity, commitment and perseverance. We will still need some time to overcome the social and educational deficits created by the crisis. Nevertheless, this effort is easier to accomplish with the prospect of permanent face-to-face teaching and I hope that we will succeed together in this project.

Linz, May 12, 2021

Franz Weißhäupl (Headmaster)
