- Digital device for use in class and at home

- Responsible use is important!
- We are counting on your support!

Our choice of device

Your device can do anything.

Our choice of device – “New”

- Lenovo Ideapad Duet 3
- Informationen
  - Schutzhülle inkl.

- **Gerät**: Lenovo Ideapad Duet 3, 11IAN8
  - **Technische Spezifikationen**:
    - Abmessungen: 27,13 x 17,2 x 0,89 cm
    - Displaygröße: 11,5 Zoll
    - Bildschirmauflösung: 2000 x 1200 Pixel
    - CPU-Modell: Intel N200
    - Betriebssystem: Windows 11 Pro (National Academic only)
    - Arbeitsspeichertyp: DDR5 mit 8GB
    - Speicherkapazität: 256 GB
    - Anschlüsse:
      - 2x USB-C
      - WLAN & Bluetooth
      - Kopfhörer & Mikrofon-Mini-Buchse (3,5 mm)
    - Gesamtgewicht (ohne Zubehör): 697 g

- **Lieferant**: CANCOM a+d IT Solutions GmbH
  - **Serviceportal**: **education.cancom.at/schultablet**
  - **Garantiedauer**: 4 Jahre (ab Erstauslieferung an die Schule)
- **Lieferumfang:** Tablet mit Tastaturcover und Digital Pen 3 inkl. Netzteil und Kabel
- **Kosten des Gerätes:** 540,00 Euro (inkl. Zubehör und Garantie)
  - Privater Eigenanteil gemäß § 5 Abs 2 SchulDigiG im Ausmaß von 25% der Gerätekosten: 135,00 Euro

Who receives a device?

All students of year one receive a device in the academic year 2025/26.

Students of years two, three, and four have received a device already.

The pupils that are now in year 5 or 6 have moved to the upper grades with their device.

Conditions to receive a device

Signed General Terms and Conditions of Contract (GTCC)

- legal relationship between students, legal guardians, and federal government
- monitored by the school

Payment of parents' financial contribution

- will not be monitored by the school
- exemption from contribution possible on request

Tutorial video (subtitles available in 13 languages):
https://tube.virtuelle-ph.at/w/qzTy8wMFbbpSLH2KuNnc7G?subtitle=en

Conditions to receive a device

<u>Every student needs:</u>

- a lock for the charging box

Important!

Helpful additions

Examples:

- protective (soft-) cover
- protective film for Ideapad Duet 3 (11.5 inch display)
- mouse (USB-C or Bluetooth)
- headphones (cable)
- ….

The next steps

1. distribution of the devices to each class in a digital basic education lesson
   - ➢when all students have fulfilled the conditions (lock and GTCC)
2. Starting the devices in a digital basic education lesson
3. parental support while using the device expected

General Terms and Conditions of Contract (GTCC)

Example (German only)

Handing out

- The computer will be given to the students after the Autumn break and after all of the pre-conditions have been met.
- All students must have:
  - lock
  - accepted the GTCC

Insurance and warranty

- 4-year warranty
- The devices are NOT insured.
- optional insurance against theft and damage

Code of conduct at school

- device must be taken to school every day or remain at school overnight
- use at school only for educational purposes and during lessons
- use only upon a teacher's request
- otherwise device is locked in the charging box
- Computer games and video streaming are prohibited on all electronic devices at all times on school premises for all students.

Responsibility of the students

- careful and resposible use of the device (in school and at home)
- safety of the device and the personal accounts
- enough charge
- enough disk space available

Key points from the concept of digital learning

- The Windows tablet is one tool amongst many.
- Digital Basic Education is useful for all subjects.
- A support team has been set up (consultation hour).
- A flexible system of projection is available in the classrooms.
- Platforms for communication and learning are part of the lessons.
- There is a focus on digital learning in teacher training and further education.

Software management

- Mobile Device Management (MDM)
  - software distribution
  - Safe Search
  - remote localization *(if requested by parents)*
- AB-Tutor
  - Classroom Management System (in school)
- Private software
  - Microsoft Store (from summer term onwards)
  - recommendation: use web-applications (to save disk space)

Software

- Office 365
- Audacity
- CapCut
- Sketchbook
- GeoGebra
- QR Code Scanner
- ….

Protection in school

- Safe Search (in Edge)
- Classroom Management System (used by teacher)
- firewall (EduGroup)
- code of conduct at school
- lockable charging box

Protection at home

- Safe Search (in Edge)
- ~~Classroom Management System~~
- ~~firewall (EduGroup)~~

  Do parents have a firewall?
- ~~code of conduct at school~~

  Parents establish rules for responsible use at home.
- ~~lockable charging box~~

  safe place to charge
- DNS-Filter (CleanBrowsing)

How can you support your child?

- Help with regular updates.
- Limit times and contents (Digital Wellbeing App).
- Offer alternatives and physical activity.
- Protect your child's privacy together.
- Let your child show you what they are doing.
- You are a role model!

You want more control (at home)

- If the device is not needed at home (no homework with device or another device is available at home), then the device can also remain locked in the charging box at school.
- Restrict the internet at home (configure Wi-Fi router with time limit).
- Microsoft Family Safety does not work on the device.

Where is data saved?

- exclusively on OneDrive (500 GB fair use)
- file structure
- online backup

Where can your child get help at school?

- digital basic education
- support team consultation hour

What can I do if the tablet has a software problem?

- Wednesdays, lesson 7: helpdesk available
- assistance with software problems
- During this time the computer can be reset:
  - After approx. 48 h the device will be available again.
  - All programs provided by school are reinstalled.
  - All files saved on OneDrive remain available.

What can I do if the tablet has a hardware problem?

- Warranty or repair
- 4 years warranty
